JOURNAL READERSHIP
The number of journal visits (the number of times a reader enters the journal) continues to increase. OJIN also continues to have a stable presence on social media via the journal Facebook page.

MANUSCRIPT SUBMISSIONS AND ACCEPTANCE RATES
A total of 114 manuscripts were submitted to OJIN for consideration in 2015. The authors of these manuscripts represented 28 states and 10 countries around the world. Fifteen invited manuscripts initiated OJIN’s three new topics for the year, while 9 manuscripts furthered the discussion of topics previously posted. OJIN published a total of 24 manuscripts this year, up from 22 in 2014. In addition, we published 13 columns in OJIN during the year, and a variety of Letters to the Editor.

The overall acceptance rate for manuscripts submitted to OJIN in 2015 was 21%. The acceptance rate for invited manuscripts was 100%, while the acceptance rate for voluntary manuscripts was 9%. The Editor responded to most initial submissions within four weeks of receiving the manuscripts indicating to the author(s) whether OJIN would further review the manuscript for publication.
