Table 2

Descriptors of Reported Innovation Studies, Scholarly Literature

Authors / Year	Design or Level of Evidence	Model	Sample	Sampling Strategy	Setting	Analytics or Analysis	Concepts	Quality	Role of Nurse
Butler-Tobah et al., 2019	Randomized Controlled Trial	None	267 obstetric patients	Convenience, randomized into treatment & control	One OB center of an academic medical center	Multivariate statistics	Quality	High	Data Collector, Triage Nurse, Co-author
Guzman-Clark et al., 2020	Retrospective Cohort	Anderson Behavioral Model	3,349 patient records	Convenience	VA Home Telehealth Program	Multivariate statistics	Adherence	High	Telehealth Nurse, Lead Scientist, Co-authors
Guzman-Clark et al., 2021	Retrospective Cohort	Anderson Model of Environment	3449 patient records	Convenience	VA Home Health National Program	Regression	Attrition	High	Coordina-tor, Lead Scientist
Greenhalgh et al., 2018	Case Studies	NASSS Framework	4 clinical services in the NHS	Convenience	National Health Service	Action Research	Complexity	Low	Unstated
Sittamagari et al., 2020	Prospective Case Series, Descriptive	None	1 hospital academic learning system	N/A	Large integrated Investor-Owned academic learning health system across 4 states	Descriptive Statistics	Design Process, Safety	High	Telemoni-tor for triage, Symptom Manager
